Course Description

This comprehensive course will focus on joint preservation techniques in foot and ankle surgery. Attendees will have the ability to listen to short lectures, case discussions and view cadaveric demonstrations throughout the course. All participants will have the opportunity to translate techniques taught in the course through a hands-on cadaveric bioskills lab with faculty.

Learning Objectives

Attendees will develop knowledge, skills and abilities related to the treatment of foot and ankle orthopedic pathologies.

Faculty

**Alan Garrett,
DPM**

Acclaim – Fort Worth, TX
