

INTERNATIONAL Surgeon Summit

This two-day International Surgeon Summit includes cadaveric surgical skills workshops, didactic sessions, and interactive fireside case discussions. Surgical approaches, new concepts and innovative treatment options for upper extremity fracture management and complex reconstruction will be taught by expert faculty surgeons and renowned professors.

INTERNATIONAL Surgeon Summit

Course Location & Date

March 24-26, 2023 MIAMI, FL

Learning Objectives

- Management of simple and complex fractures of the hand and wrist, as well as soft tissue management for optimal outcomes.
- Kinematics and biomechanics of the forearm and how the soft tissues affect elbow function.
- Innovative treatment options for elbow instability including radial head fixation and arthroplasty as well as olecranon, coronoid, and distal humerus fracture management.

Participant Profile

Hand & Upper Extremity, Shoulder & Elbow, Orthopaedic Trauma, and Plastics surgeons interested in advancing their understanding of fracture management techniques related to the treatment of hand, wrist, and elbow pathologies.

INTERNATIONAL Surgeon Summit
